

# January 2018 Data Release

The Home Purchase Sentiment Index<sup>®</sup> (HPSI) is a composite index designed to track consumers' housing-related attitudes, intentions, and perceptions, using six questions from the National Housing Survey<sup>®</sup> (NHS).

#### **The Home Purchase Sentiment Index**

The HPSI rose 3.7 points in January to 89.5, reversing the decrease seen last month and reaching a new all-time survey high.

#### **Components of the HPSI**

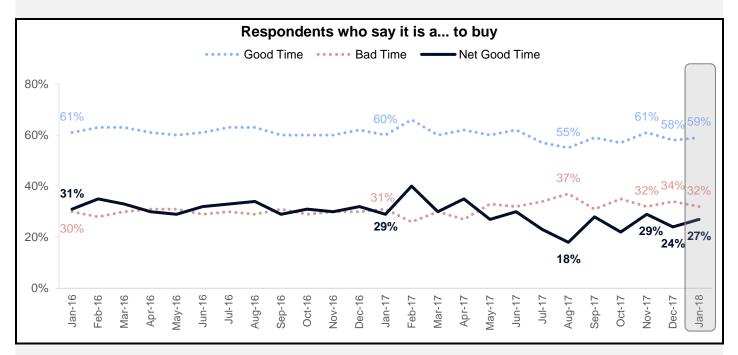

The increase in the HPSI can be attributed to increases in five of the six HPSI components: "Home Prices Will Go Up" (+8), "Confidence About Not Losing Job" (+5), "Good Time to Sell" (+4), "Good Time to Buy" (+3), and "Mortgage Rates Will Go Down" (+2).

	January 2018*	Change Since Last Month	Change Since Last Year
January 2018 HPSI	89.5	+3.7	+6.8
Good Time To <b>Buy</b>	27	+3	-2
Good Time To Sell	38	+4	+23
Home Prices Will Go Up (next 12 months)	52	+8	+10
Mortgage Rates Will Go Down (next 12 months)	-50	+2	+5
Confidence About Not Losing Job (next 12 months)	73	+5	+4
Household Income Is Significantly Higher (past 12 months)	16	0	+1
* Net percentages of the component questions used to calculate HPSI, e.g. (Per	rcent Good Time to Bu	uy – Percent Bad Time	e to Buy) = 27

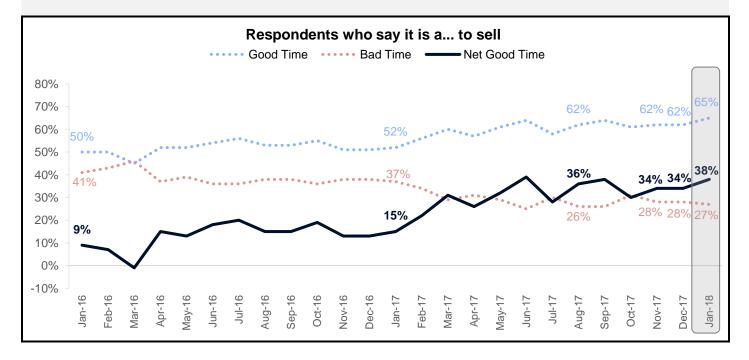

# **Components of the HPSI –** Good/Bad Time to Buy and Sell a Home

The net share of Americans who say it is a good time to buy a home rose 3 percentage points to 27%, reversing some of last month's decline.

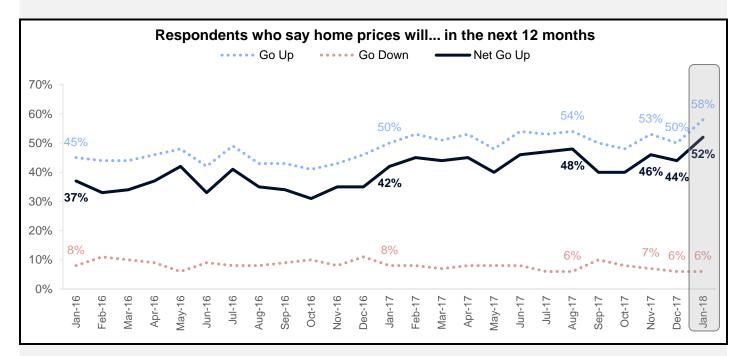

In January, net percentage of those who say it is a good time to sell rose 4 percentage points to 38%. The share who said it is a good time to sell reached a new survey high of 65%.

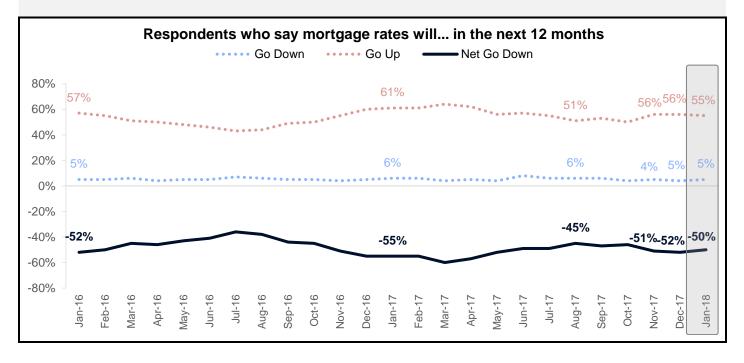

#### **Components of the HPSI –** Home Price and Mortgage Rate Expectations

The net share of Americans who say home prices will go up rose 8 percentage points to 52% in January, reaching a new survey high. The percentage who said home prices will go up reached a new survey high of 58%.

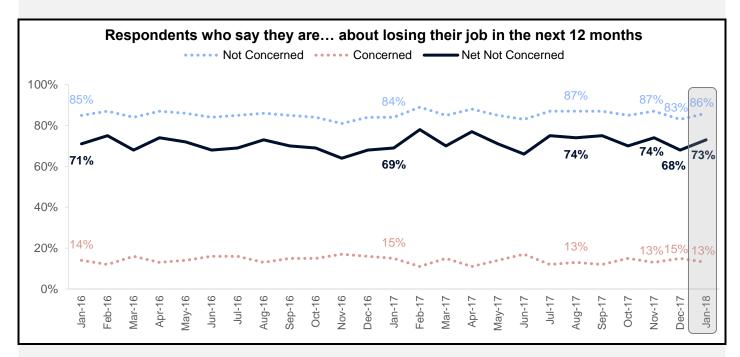

The net share of those who say mortgage rates will go down over the next 12 months rose 2 percentage points to -50%.

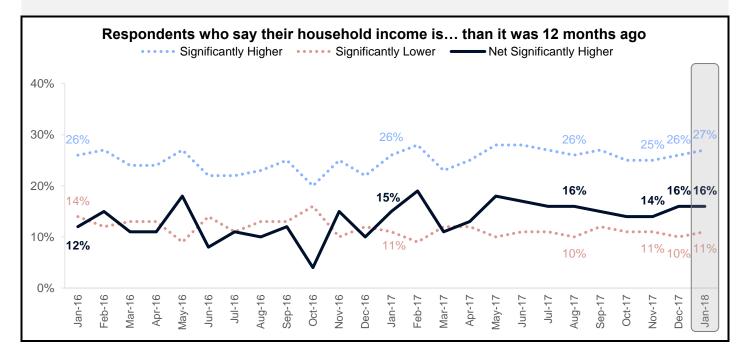

#### **Components of the HPSI –** Job Concerns and Household Incomes

The net share of Americans who say they are not concerned about losing their job rose by 5 percentage points to 73%.

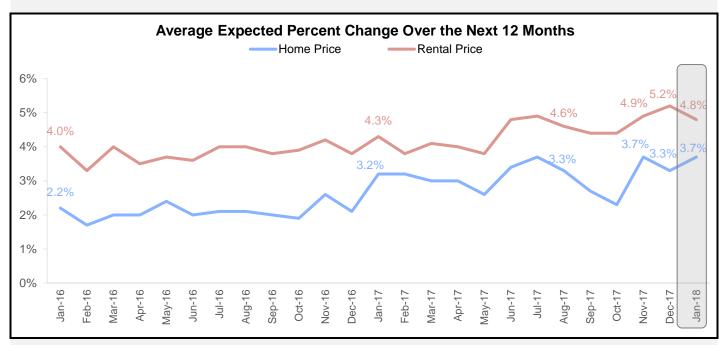

The net share of Americans who say their household income is significantly higher than it was 12 months ago remained at 16% from last month.

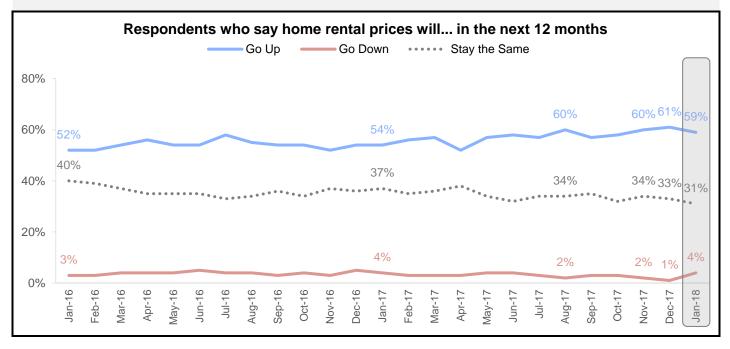

### **Additional National Housing Survey Key Indicators**

On average, Americans expect rental prices to rise 4.8% over the next 12 months – 0.4 percentage points lower than last month. They expect home prices to rise 3.7% over the next 12 months, a 0.4 percentage point increase since last month.

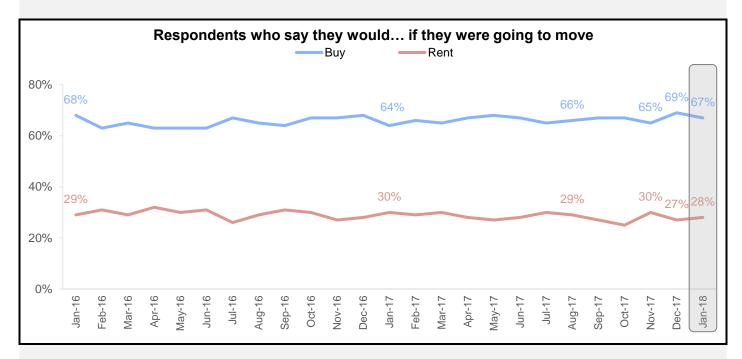

The percentage of Americans who expect home rental prices to go up fell 2 percentage points to 59%, while the share of Americans who expect home rental prices to go down rose 3 percentage points to 4%, falling and rising from the survey high and survey low respectively of last month.

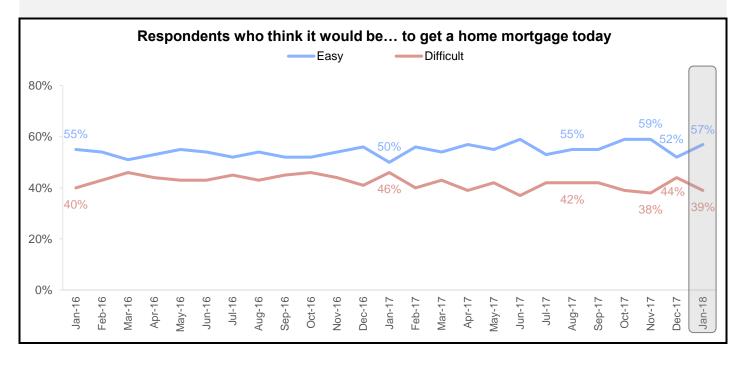

### **Additional National Housing Survey Key Indicators**

The share of Americans who say they would buy if they were going to move fell 2 percentage points to 67%, while the share who say they would rent rose by 1 percentage point to 28%.

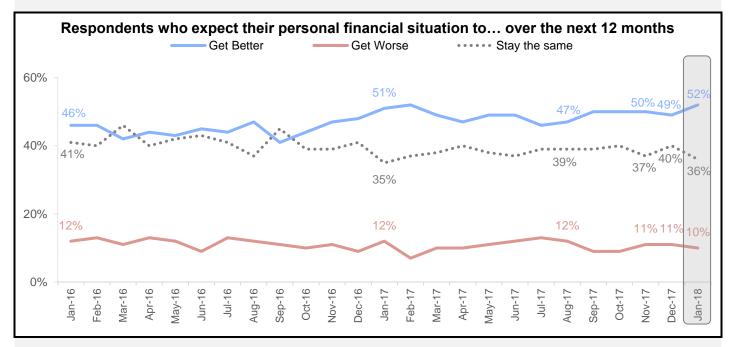

The share of Americans who say getting a mortgage would be easy rose 5 percentage points to 57% from last month. The share who say it would be difficult fell 5 percentage points to 39%.

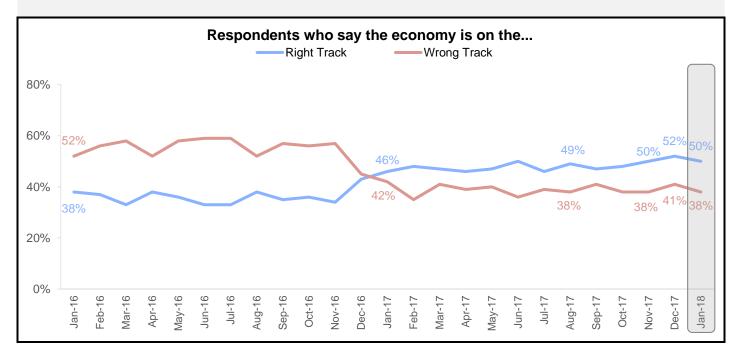

# **Additional National Housing Survey Key Indicators**

The share of Americans who expect their personal financial situation to get better rose 3 percentage points to 52%, matching a survey high last seen February 2017, and the share who expect it to stay the same fell 4 percentage points to 36%. The share who expect it to get worse over the next 12 months fell 1 percentage point to 10%.

The share of Americans who say the economy is on the right track fell by 2 percentage points to 50%, from the survey high of last month. The share who say it is on the wrong track fell 3 percentage points to 38%.

# The National Housing Survey®

January 2018 APPENDIX

#### About the Survey

The National Housing Survey<sup>®</sup> polled a nationally representative sample of 1,004 household financial decision makers (margin of error  $\pm 3.1\%$ ) aged 18 and older between January 2, 2018 and January 25, 2018. Most of the data collection occurred during the first two weeks of this period.

Interviews were conducted by PSB, in coordination with Fannie Mae.

The statistics in this release were estimated from sample surveys and are subject to sampling variability as well as nonsampling error, including bias and variance from response, nonreporting, and undercoverage. Averages of expected price changes were calculated after converting responses of "stay the same" to 0% and after excluding outliers, which were defined to be responses that were more than two standard deviations from the means.

How the Home Purchase Sentiment Index (HPSI) is Calc	ulated*	
Net Good Time to <b>Buy</b> Very or Somewhat Good Time To Buy – Very or Somewhat Bad Time To Buy	Q12	
Net Good Time to <b>Sell</b> Very or Somewhat Good Time To Sell – Very or Somewhat Bad Time To Sell	Q13	
Net <b>Home Prices</b> Will Go Up (next 12 months) Home Prices Will Go Up – Home Prices Will Go Down	Q15	
Net <b>Mortgage Rates</b> Will Go Down (next 12 months) Mortgage Rates Will Go Down – Mortgage Rates Will Go Up	Q20B	
Net Confident About Not Losing <b>Job</b> (next 12 months) Not at All or Not Very Concerned about Losing Job – Very or Somewhat Concerned about Losing Job	Q112B	
Net Household <b>Income</b> is Significantly Higher (past 12 months) Income is Significantly Higher – Income is Significantly Lower	Q116	
$HPSI = \frac{Q12 + Q13 + Q15 + Q20B + Q112B + Q116}{6} + 63.5$		
* The HPSI calculation includes the addition of a constant of 63.5 in order to set the index's initial value at 60 with the <b>Index of Consumer Sentiment</b> and the <b>Consumer Confidence Index</b>	as of March 2011, in range
